## IN GALA ATTIRE

### Democratic State Convention at Rock Springs, Wyo.

#### FLAGS, BANNERS AND BUNTING

Permanent Organization Perfected, and the Convention adjourned 10 o'clock—Resignation of Chairman Still.

Rock Springs, Wyo., July 27.—[Special telegram to THE TRIBUNE.]—Rock Springs is in gala attire today with flags, banners and bunting.

The state Democratic convention met at the opera house at 2 o'clock.

E. S. Johnson of Cheyenne was temporary chairman and E. J. Wyche of Rock Springs temporary secretary.

Chairman Hall of the state central committee, called the convention to order in a speech of an hour and a half in which he reviewed the Cheyenne leader, Denver News and the party generally, which he called an explanation. He tendered his resignation to the convention.

Two women delegates, Mrs. R. S. Hard of Uinta county and Mrs. D. Hamilton of Lincoln county are in attendance. Mrs. J. K. Grap, another delegate of the latter county, sent a proxy.

Judge L. T. Corn of Evanston, was made permanent chairman, and T. J. Wyche of Rock Springs, permanent secretary. The convention then adjourned till 10 o'clock when the committee on platform will report.

Indications tonight are that J. J. Hewitt, the sleeping king of Natrona county will receive the nomination for governor.

A ball and banquet was tonight tendered the visiting delegates.

In accepting the position of permanent chairman this evening, Judge Samuel T. Corn declared that all of his speech to be advocacy of free and unlimited coinage of silver.

The convention opened with an incident that will have an important bearing on the impending campaign. Walter R. Stoll, the attorney and young leader, resigned the chairmanship of the state central committee, and will scarcely have his test this fall. He will take with him nearly all the moneyed men of the party and leave the common herd and the new managers to carry on the campaign.

Stoll made a talk of an hour and a half, the undivided attention of his audience and was frequently applauded. He

spoke with intense earnestness and was conscious of his expression of accepting the fact that the new Democratic would take into camp and follow the counsel of the rustler element. He pointed out the error of such a course. He first said his own great sin was acting as attorney for some of the famous Johnson county raiders. Then he argued that an alliance with a lawless element could not have victory as its outcome. He said that the armed invasion ought to be condemned, but that the men who conducted it were not the only persons who had violated the statutes in the state. His idea was that the Democracy should declare itself on national issues and the state administration of the Republic.

What is called the rustler element controls the convention, but the managers for Joe Hunt, their gubernatorial candidate, are afraid that Stoll's speech hurt the chances of their man.

Kabib, the Cheyenne man, claims to have the votes, but is trembling over the mention of H. A. Coffeen, a neutral man of the north.

One delegate in this convention represents two counties, and has eleven votes. He is even more popular than four handsome and dashing women who are delegates. A proposition to be submitted to the convention will involve the condemnation of Cleveland's declaration for free coinage and presidential electors to be independent.

#### INCENDIARISM IN IDAHO.

Large Hall Burned at Montpelier—Tons of Lumber.

MONTPELIER, Ida., July 27.—[Special telegram to THE TRIBUNE.]—A fire broke out here this morning at 2 o'clock a. m. in the Kimball hall and completely destroyed the entire building. The hall is now owned by Helen C. Rich of Logan. Some insurance. Total value of property destroyed, \$5,000. In the basement of the building was a new threshing machine belonging to Fremont Hall, that also went up in flames. There is no question but that it was set on fire. The upper part of the hall was not locked, and on Monday evening there was a dance held there, but all the lights were put out. Sheriff Jones has the matter in hand and it is to be hoped that he can bring the fire burners to justice. The town is greatly excited over this fire, and if the perpetrators of the act are caught, there is strong talk of lynching.

Business District Burned.

HOTEL, Cal., July 27.—The business district of this town was destroyed by fire yesterday. Loss \$50,000.

## SUN'S SLAUGHTER

### Fifty Deaths in Chicago and Hundreds of Prostrations.

#### BLISTERING, BURNING, BOILING

Hospitals All Filled With Patients—Horses Dying in the Streets—Policemen Prostrated—Reports from Other Points.

Chicago, July 27.—The slaughter by the sun was still on in Chicago today, fifty deaths and more than twice as many prostrations from heat occurred. Although there is now a prediction of a cold wave and a probability of relief, it is certain that the number of deaths will be largely increased during the next few days.

The hospitals are filled with patients suffering from sunstroke, many of whom cannot possibly recover.

The record of yesterday, which surpassed anything in the number of deaths and prostrations from heat that the city has ever known, was eclipsed by the awful work of the sun today. The temperature ranged in the shade from 92 to 94 and as for days past the wind was from the south and blistering hot.

The majority of the casualties were among the laboring men, and in portions of the city occupied by the poorer classes.

The number of horses which were sunstruck and caused temporary blockades of crowded thoroughfares could hardly be counted. There were not enough horses in the police department to carry off the animals which fell during the day in and about the business center alone, and it was found necessary to call in outside help, for the ambulances and patrol wagons had all they could do.

To CARE FOR HUMAN BEINGS.

The police were the most overworked body of men in the city today, being on the jump from early morning until nearly midnight, and so severe was the work that several officers were prostrated.

At various hospitals the entire staff of physicians were kept busy all day and evening, and there was hardly enough help.

TERMINATING FALLS.

DETROIT, July 27.—The intense heat of this section was broken at noon by a terrific thunder storm over the southeastern portion of the state. The thermometer stood 91 degrees and fell 22 degrees.

She Admitted Her Infatuation for Freda Ward—Tried to Kill Her Twice Before.

MEXICO, July 27.—In the trial of Alice Mitchell today for the murder of Freda Ward, the defendant took the stand in her own defense and told the story of the killing substantially as heretofore related.

She admitted her infatuation for Freda Ward, and how she expected to raise a fortune by her pickpocketing and by the publicity of the place in which she found her. She told of her intended marriage to Freda, and how she expected to raise a fortune by her pickpocketing and by the publicity of the place in which she found her.

When Alice concluded, the defense submitted the case without argument. Judge Debesse will charge the jury Friday.

Hudson, Wis., July 27.—A most destructive wind and rain storm visited this section last night, lasting twelve hours. It was almost a cloud burst. Cellars were flooded, causing much damage to goods; crops are almost totally destroyed in the surrounding country and much stock was killed by lightning. ## DEATH BY CHOLERA

### Over a Thousand Fatalities Occur in Two Days.

#### REASON BISMARCK RESIGNED

Kicked Out by the Emperor Without Consideration—Record of Delays in the Old World.

St. Petersburg, July 27.—According to an official bulletin 2,055 cases of cholera and 1,172 deaths from the infection in districts of Russia on the 23d and 24th inst. It is feared that cholera will soon appear here if warmer weather continues. The death rate along the Volga is likely to be greater than supposed. #### EMPEROR AND PRINCE.

Cause of Bismarck's Resignation—The Emperor Associates With the Centrists.

GENEVA, July 27.—The newspaper Genoevo publishes a statement made by a friend of Bismarck's, whose name is not revealed. The friend says he entered Bismarck's study on the day of the rupture between the prince and emperor. Bismarck was trembling with agitation, his hands were shaking, his face was pale, his eyes were staring. He exclaimed: "The emperor kicked me out without consideration; me, the greatest statesman of my grandfather and father."

When he became calm, Bismarck exclaimed that the emperor had announced his intention to attend the fête to be given by Dr. Windthorst, the centrist leader. Bismarck begged the emperor not to go, saying that his presence would be regarded as a condemnation of the attitude of the emperor in the eyes of the centrist, his bitter enemies, while it would cause great satisfaction to the enemies of the emperor and be an overt repudiation of the chancellor. The emperor answered brusquely, disdainfully stamping his foot. "Are you going to dictate my very life?" he asked.

Bismarck replied: "Then I must resign." "I accept your resignation," said the emperor. "You may retire. Send me your resignation in writing."

#### MASS MEETING OF HAWAIIANS

To Discuss the Calling of Pearl Harbor to the United States.

HONOLULU, via San Francisco, July 26.—There was a mass meeting of Hawaiians on the 14th inst., on the question of the calling of Pearl Harbor to the United States. Robert Wilcox argued for the calling, citing the advantages to be derived therefrom, etc., and saying that it did not mean annexation to the United States. Hoo Nahwah argued against the calling and wanted to know if the emperor had changed in Wilcox's mind. He thought Americans might break contracts about Pearl Harbor as easily as he broke faith over the treaty.

During the discussion of the appropriation bill in the legislature, Representative Ashford moved in committee of the whole to amend the bill so as to provide for the support of the cabinet and asking its dismissal. Wilcox took part in the debate, saying that he was of the opinion that the attorney-general, marshall and deputy marshall were implicated in smuggling opium. Ashford's resolution was lost, however.

As the steamer is leaving today the report is current that the ministry will tender its resignation.

#### POOR OF ST. JOHNS.

They Are in Worse Condition Than the Sufferers by the Fire.

HALIFAX, July 27.—The latest information from St. John, N. F., states that the militia will parade the streets to maintain order and prevent incendiarism, which has been attempted. The condition of the poor in the unburned section is worse than that of the sufferers by the fire. They are without means of subsistence and can get none of the relief contributions. They are actually trying to burn their few belongings in order to get relief. Several thousand persons are unemployed on a large field, their housing being the worst feature at present. There is no want of clothing or food. The only thing that is wanted is the relief, the famine that succeeds the feast.

CITY OF MEXICO, July 27.—Henry Adams of New Hampshire and James D. Walton, an Englishman, to settle a dispute as to the relative courage of Americans and Englishmen, agreed that the one who should first plant the flag of his nation on the edge of the crater of a volcano near Colima should be declared winner. ## WILL RULE OR RUIN

### Alleged Remarks of One of the Homestead Strikers.

#### THE CEUR D'ALENE SITUATION

Order for Withdrawal of Troops Creates Consternation Among Non-Union Men—They Want Protection.

CHICAGO, July 27.—A Homestead special says it is evident that the Carnegie company is able to operate the mills under the protection of the militia, but there are other means of fighting, according to a member of the advisory committee, who said:

"We will not under any circumstances permit these mills to run, if there is any agency which may be employed to prevent it. We have already selected men who will go into these mills as far as they can secure employment, who are as well as they can secure employment in the mills. When we are sure there is no longer any place for us, we will place explosives in the mills and blow them up. We have determined that these mills shall not be operated by non-union men and one of the principal ways to prevent it is either to control or break the property. I might say a great deal more, but under the circumstances I have said as far as I dare
